

A Critical Thinking & Application NCLEX® Review Course

Q Review Info

The Hurst Q Review examination is designed to assist students with preparation for the NCLEX® exam by providing realistic practice questions in a timed format and is included with the complete Hurst Live or Online NCLEX® review course. Hurst provides **six (6) attempts for the RN reviews and three (3) attempts for the PN reviews**. The NCLEX® exam is an adaptive test, meaning the next question served is chosen based on your response to the previous question. There are no NCLEX® preparation test banks (available from any source) that are identical to the NCLEX® exam.

Just like the real NCLEX® exam:

1. You will receive the correct percentage of each test category based on the current NCSBN test plan.
2. Overall test results as well as results by category are provided following completion.
3. You must answer each item before you can move to the next item.
4. After you answer an item, you cannot return to any previous item to change your answer.
5. Your time available remaining for the exam is indicated by clock countdown above each question.
6. Work in a systematic manner; do not spend too much time on any one item.
7. If you choose to retake the Q Review exam, the test will not repeat previously taken questions.

Unlike the real NCLEX® exam:

1. Hurst's Q Review exams are not adaptive. You will receive 125 practice questions on each exam, and for scoring purposes, all questions are worth the same amount.
2. Hurst Q Review immediately reports your results and rationales for all correct and incorrect answers! A completion certificate that includes results by test category is available for immediate printing.
3. To accommodate students' schedules, you will be allowed to pause the Q Review exam and return at a later time to complete it.
